

```
#include <iostream>
using namespace std;
// Uppgift 1
int main(int argc, char** argv)
{
    setlocale(LC_ALL, "swedish");
    char c;
    cout << "Mata in en gemen (liten bokstav) ";
    cin >> c;
    char c2 = c-32;
    cout << "Motsvarande VERSAL är " << c2 << endl;

    return 0;
}
```
